

## EDITORIAL

The Editorial Board of the El Higo Journal of Science and Technology is pleased to present to the academic community Volume 16, Issue 1, published in June 2026. This issue features 11 scientific articles written by researchers from institutions in Nicaragua, Ecuador, Guatemala, Mexico and Colombia. The published findings cover various fields of knowledge, notably agricultural and agroindustrial technologies, educational quality, process engineering and business management.

The articles in this issue reflect the scientific community's commitment to generating knowledge aimed at addressing challenges relevant to socioeconomic, environmental, and productive development. They also highlight the importance of interdisciplinary research as a tool for promoting innovative and sustainable solutions that contribute to the well-being of society.

We are convinced that the findings presented in each article are a valuable contribution to scholars, professionals, researchers, and decision-makers.

We would like to express our gratitude to all the authors who have placed their trust in the journal El Higo to publish their research, as well as to the reviewers and the editorial and technical staff for their collaboration; their commitment and excellence enable us to maintain the high standards that set us apart.

We invite the scientific community to read the articles and actively participate in the journal El Higo by submitting their scientific contributions.
